

## LONDON NOTICE No. 2822

ISSUE DATE: 7 December 2006  
EFFECTIVE DATE: 1 January 2007

### SUBSCRIPTIONS, FEES AND CHARGES FROM 1 JANUARY 2007

#### Executive Summary

This Notice informs members of the subscriptions, fees and charges from 1 January 2007.

1. The Exchange has determined the subscriptions, fees and charges that shall become effective on and from 1 January 2007 for the London market. These are set out in the Attachment to this Notice.

For further information in relation to this Notice, members should contact their Account Manager.

Web site: [www.euronext.com/derivatives](http://www.euronext.com/derivatives)

The Euronext Derivatives Markets ("Euronext.liffe") include the markets for derivatives operated by Euronext Amsterdam, Euronext Brussels, Euronext Lisbon, Euronext Paris and LIFFE Administration and Management, referred to respectively as the Amsterdam, Brussels, Lisbon, Paris and London markets.

**Euronext NV, PO Box 19163, 1000 GD Amsterdam, The Netherlands**

**THE LONDON MARKET****SUBSCRIPTIONS, FEES AND CHARGES FROM 1 JANUARY 2007**

The following rates apply with effect from 1 January 2007 until further notice. All charges listed below are shown in Pounds Sterling (unless stated otherwise) and are exclusive of any applicable VAT. Explanatory notes are provided on pages 7 - 9.

<b><u>From</u></b>	<b><u>As at</u></b>
<b><u>1.1.07</u></b>	<b><u>31.12.06</u></b>

**1. CHARGES APPLICABLE TO ALL MEMBERS**

<b>Membership Subscription</b>	£5,000	£5,000
--------------------------------	--------	--------

Bulk Delivery Unit – appeal	3,400	3,400
Robusta Coffee	22	22
Robusta Coffee – appeal	25	25

## 5. CHARGES APPLICABLE TO LIFFE CONNECT<sup>®</sup>

These charges are applicable to customers located within 5km of the Euronext.liffe points of presence (“PoPs”) in London, Paris, Brussels, Amsterdam and Lisbon.

Account managers will notify those members whose locations are further than 5km from the appropriate PoP and inform them of applicable charges.

Members located in countries other than Belgium, France, The Netherlands, Portugal, and the United Kingdom will have a Minimum Annual Volume Requirement<sup>5</sup> (“MAVR”). LIFFE General Notice No. 2093, issued on 30 August 2002, provides further information in connection with these charges.

The LIFFE CONNECT<sup>®</sup> market infrastructure is also able to support Post Trade Services. The charges for Post Trade Services are noted in section 7 below.

### Installation of network access connections to LIFFE CONNECT<sup>®</sup>

	<u>From</u> <u>1.1.07</u> €	<u>As at</u> <u>31.12.06</u> €
Each Standard <sup>6</sup> connection, including gateways	12,500	12,500
Each HSRP <sup>6</sup> connection, including gateways	22,500	32,500
Upgrade of Standard to HSRP connection, including gateways <sup>7</sup>	10,000	20,000
Each additional gateway	5,000	5,000

	<b><u>From</u></b> <b><u>1.1.07</u></b>	<b><u>From</u></b> <b><u>31.12.06</u></b>
<b>Annual rentals</b>	<b>€</b>	<b>€</b>
Each Standard or HSRP connection	25,000	25,000
Each VAN connection	10,000	15,000
Each ASP <sup>8</sup> connection	10,000	10,000
Each VPN connection	5,000	5,000

## Relocations and Moves<sup>9</sup>

For this type of change, Euronext.liffe strongly recommends a parallel installation, installed on the same basis as shown on the previous page. Members should contact their Account Manager for further information.

## 6. PRICE INJECTION CHARGES<sup>10</sup>

For all products other than Euribor Futures, these charges relate to the daily usage of bandwidth based on the limits specifically allocated to each member. The charge is per message.

	<b><u>From</u></b> <b><u>1.1.07</u></b> <b>£</b>	<b><u>As at</u></b> <b><u>31.12.06</u></b> <b>£</b>
Up to message allocation	No charge	No charge
Between 100% and up to 110% of message allocation	£0.070	£0.070
Above 110% and up to 120% of message allocation	£0.140	£0.140
Above 120% of message allocation	£0.175	£0.175

For Euribor Futures only, a 2:1 order-to-trade ratio applies (i.e. the Automated Price Injection Model must achieve 1 lot traded for every 2 order messages to avoid charges). Any messages which exceed the 2:1 ratio will be charged at 17.5p.

## 7. POST TRADE SERVICES

This section details annual service charges for access to post trade data. Where LIFFE CONNECT<sup>®</sup> market infrastructure exists or is being ordered, there are no additional infrastructure charges. For customers without LIFFE CONNECT<sup>®</sup> market infrastructure, LIFFE offers two access solutions: (i) a 64k leased line solution; and (ii) a Virtual Private Network (“VPN”) solution. Charges for a 64k leased line or a VPN solution are in addition to any post trade services accessed via such solutions.

	<b><u>From</u></b> <b><u>1.1.07</u></b> <b>£</b>	<b><u>As at</u></b> <b><u>31.12.06</u></b> <b>£</b>
<b>Infrastructure Charges</b>		
<b>LIFFE CONNECT<sup>®</sup> infrastructure</b>	No extra charge	No extra charge
<b>64k solution</b>		
Installation per 64k infrastructure	5,000	5,000
Rental per 64k infrastructure	5,000	5,000

	<b><u>From</u></b> <b><u>1.1.07</u></b> £	<b><u>As at</u></b> <b><u>31.12.06</u></b> £
<b>VPN via the Internet<sup>11</sup></b>		
Set-up per VPN connection	1,500	1,500
Rental per VPN connection	2,000	2,000
<b>Annual Service Charges</b>	<b>£</b>	<b>£</b>
<b>TRS “terminal type” access<sup>12</sup></b>		
Each IP connection	3,000	3,000
<b>TSCS PC Gateway</b>		
TSCS IP connection with PC Gateway software	15,000	15,000
<b>TRAMP IP connection</b>		
Each connection	12,500 per connection	12,500 per connection

## **Explanatory Notes**

### **1. Transaction Charges**

The transaction charges set out in section 2 only relate to those transactions that are effected/submitted through LIFFE CONNECT®.

LIFFE Recognised Strategy Trades in Interest Rate, Equity Index and Equity Option Contracts (excluding Euribor and Short Sterling Option Contracts) will continue to be treated at just one and a half times the normal per lot fee irrespective of the number of legs involved in the strategy. In the case of Equity and Index Options, these rebates do not apply to volatility trades and Stock Contingent Trades.

Pack and Bundle strategies in Euribor and Short Sterling Futures Contracts will continue to be charged on a per side, per strategy basis, according to the following table:

Strategy	Euronext.liffe Transaction Fee (per side, per strategy)
White Pack	£0.82
Red Pack	£0.62
Green Pack	£0.42
Blue Pack	£0.00
Gold Pack	£0.00
Two Year Bundle	£1.04
Three Year Bundle	£0.96
Four Year Bundle	£0.88
Five Year Bundle	£0.80

Unless explicitly stated otherwise, transaction charges do not include LCH.Clearnet Ltd clearing fees, tender fees, cash settlement and options exercise and assignment fees.

### **2. USF Contracts available through the MATCH Facility**

The LIFFE transaction fee in respect of USFs traded through the MATCH Facility will be 0.01% (1 basis point) of the notional value per side per lot, i.e.:

$((\text{contract price} \times \text{size of the contract}) \times \text{number of contracts traded}) \times 0.01/100.$

### **3. Cocoa Futures Levy**

A penny per side, per lot will be added to the Cocoa Futures transaction charge for The Biscuit, Cake, Chocolate and Confectionery Alliance.

### **4. Bclear Transaction Charges**

Fees will be charged on a per side, per lot basis, subject to a fee cap per transaction. Such fee caps shall apply to all products. The fee caps differ depending on whether business is allocated to the member's own/House account or to the member's client accounts. For trades with multiple legs, each leg is charged separately, up to the fee cap (i.e. for these purposes, each leg is treated as a separate transaction).

Members should note that the transaction charges applicable to recognised strategy trades in respect of LIFFE CONNECT® business do not apply to recognised strategy trades reported through Bclear.

### **5. Minimum Annual Volume Requirement**

The MAVR is the minimum total amount of transaction fees which a member must pay to the Exchange for each calendar year. LIFFE will credit the member's MAVR in respect of the fees paid by

the member for its traded volume executed on LIFFE CONNECT<sup>®</sup> at the rates of credit established by the Exchange and notified to the member.

An MAVR applies to each direct network access connection to LIFFE CONNECT<sup>®</sup> (excluding access via a Value Added Network) for all members located outside Belgium, France, The Netherlands, Portugal and the United Kingdom.

In respect of a member's first connection, a deposit for the MAVR may be required. (The size of deposit will vary with location.) Any deposit that may have been paid by the member will be refunded once the MAVR has been met in full.

In respect of most members who are active on LIFFE CONNECT<sup>®</sup>, the credit against the MAVR referred to above is likely to be sufficient so as to ensure that no "un-recovered" MAVR will arise. However, if the member fails to trade sufficient business to meet its MAVR, the member will be required to pay LIFFE the difference between the MAVR and the actual amount of transaction fees paid by the member to LIFFE for the first MAVR year. In the second and subsequent MAVR years, LIFFE may invoice the member for this difference on a three-monthly pro-rata basis.

For each new connection the annual period over which the MAVR will be calculated will commence at the date of a member becoming active on LIFFE CONNECT<sup>®</sup> or sixty days from the installation date.

For the avoidance of doubt, in the event that the member is or subsequently becomes a Market Maker, the member will still be required to fulfil its MAVR. All trades by a Market Maker contribute towards the MAVR, whether they are discounted (in part or in full) or fully chargeable. In cases where the trades are discounted, the full listed price of the transaction is credited to the MAVR requirement.

#### **6. Standard connection/HSRP connection**

A LIFFE CONNECT<sup>®</sup> Standard connection consists of two high speed data circuits, one router, one network switch and two LIFFE CONNECT<sup>®</sup> gateways. A LIFFE CONNECT<sup>®</sup> HSRP connection consists of two high speed data circuits, two routers, two network switches and four LIFFE CONNECT<sup>®</sup> gateways. If a customer needs more than the allotted number of gateways, additional gateways can be ordered at a charge of €5,000 each.

#### **7. Upgrade of Standard to HSRP connection**

For a one-off charge of €10,000, customers can have a LIFFE CONNECT<sup>®</sup> Standard connection upgraded to an HSRP connection. The HSRP installation will include four gateways. If the customer requires more than four gateways, then these can be provided at the same time as the upgrade at a charge of €5,000 per each additional gateway.

#### **8. Application Service Providers ("ASPs")**

ASPs offer managed services to Euronext.liffe customers by housing their gateways and infrastructure within a data centre.

#### **9. Relocation and Moves**

For relocation of LIFFE CONNECT<sup>®</sup> market infrastructure to new premises, LIFFE recommends a parallel installation, as this is relatively risk free compared with moving PTT circuits and LIFFE equipment on a nominated date. If the customer prefers the B end shift option, PTT costs for shifting the circuits will be added to the LIFFE installation costs shown in Section 5. PTT costs for B end shifts are variable, dependent on the amount of work required to shift the circuits. For more information, members should contact their Account Manager.

#### **10. Price Injection Charges**

The charging arrangements are set out in full in LIFFE General Notice No. 2370, issued on 5 March 2004.

**11. VPN Connection via the Internet**

The Virtual Private Network (or “VPN”) connection provides a method of accessing LIFFE’s Post Trade Services via the Internet. For more details about this offering, members should contact their Account Manager. The costs of any Post Trade Services provided via the VPN or 64k solutions are additional, as stated in Section 7.

**12. Trade Registration System (“TRS”) terminal type access**

Printers and asynchronous terminals are no longer provided by LIFFE for TRS terminal type services. All new requests for TRS terminal type services are now supplied as IP connections via customer supplied terminal emulation software. The IP terminal connections are not location dependent. The asynchronous technology (modems and terminal servers) will be phased out in due course.

**General**

The Exchange reserves the right to charge other than in accordance with the standard tariff.
